Well, ladies and gentlemen,

Due of the long delays of the ADTRW group,
I have decided to create a new group named
DummyScan (for the manga translation).
(and DummySub for fansubbing)

I have a lot of respect for ADTRW high quality work and the nice story of

Boku no Futatsu no Tsubasa

they gave us! Thank you!

I have already have bought original Japanese volumes
(currently 5 are out)
and scan them using my newly developed cam-scanmethod.

Using another site of mine, I've asked people for help with the translations.

It took a while to find translators who were willing to help me
with the pages. Luckily, someone volunteered to help us.

Now it's finally here: some translators translated the whole
chapter! I can now edit the pages (yes, i'm also editor) and trying to
create the same high level of quality level as was used by ADTRW.

It's possible that the translation is not very accurate and some
sound-effects are forgotten, but please bear with us.
This is our first release.

And yes, the next chapter (19) will be coming soon!

You may visit our new site: http://dummyscan.mrdummy.net/

P.S.: You can still download chapter 1-17 as done by ADTRW. (www.adtrw.org)
